### Education & Training

#### FULL STACK WEB DEVELOPMENT

CareerFoundry

April 2020 - August 2020

- Completed the seven-month, Full Stack Immersion program in four months, developing a portfolio of four, robust web applications.

### Projects

- Currently in the early stages of collaborating on a beginner's guide to web development. I personally created a team consisting of designers (UX and UI) and two additional full stack developers. UI is built with React and Bootstrap.
- A real-time chat app built using React Native. Includes storage and offline capabilities using Google Firestore and a clean UI using the Gifted Chat Package.
- A REST API for movie lovers to create a profile and acquire information about their favorite movies. Client side developed in React, server side uses Node.js and a database in MongoDB Atlas. User authentication provided by JWT, and CORS provides cross-browser security.
- A Todo app built with Vue, Material Design, and Draggable that boasts a modern UI. Users, can add, remove, and prioritize tasks with a simple, yet effective interface.
- A Meetup PWA built using React. Data visualizations display upcoming events and registration availability. Client side created with libraries such as Moment, Recharts, and Axios.

### Experience

Dining Room Manager

The Surf Club - Wrightsville Beach, NC
