Sean Murphy
FULL-STACK WEB DEVELOPER

https://www.smurphyk.com

Niangua, MO   (703) 473 - 7373   seankmurphy131@gmail.com

An analytical junior developer seeking a challenging position that fosters innovation and creativity

Projects

- Developed a real-time, React Native chat app that allows users to log in, choose a theme, and send/receive messages, images, and location. Provided storage and offline capabilities using Google Firestore and a clean UI using the Gifted Chat package.
- Created a movie API for users to keep track of their favorite films. Developed a REST API using React, Node.js, and a MongoDB Atlas database. User authentication was implemented with JWT, and CORs was used to provide security.
- Built a Vue Todo app using Material Design and Vue.Dtraggable for a modern UI. Users are able to add, remove, and prioritize todo tasks with a simple, yet effective interface.
- Constructed a Meetup PWA to allow users to search for events in their city. The front end included data visualizations to display upcoming events and open slots available for the user to register. Developed app using React, Moment library, Recharts, and Axios.

Experience
